- Long Term Redevelopment Opportunity: The site is surrounded by numerous recent multifamily, office and retail developments and is directly adjacent to a vacant parcel owned by a multifamily developer, Vanguard Properties, approved for two high rise apartment towers. As the submarket continues to grow with new development, retail tenancy, and pedestrian foot traffic, there is an opportunity to re-tenant the ground floor with a (NNN) bank branch in the future, further increasing the value of the property.
- Rapidly Improving Market: Directly across the street, the Jack London Market, featuring an 185,000 square foot project rivaling Seattle's Pike Place Market, is a marketplace for small businesses selling fruits, vegetables, meats, fish, cheeses and specialty products.  - **Development Potential:** The parking lot is located in a very flexible C-45 Zone. C-45 is designated for Community Shopping & Commercial. Retail, residential, and office uses are permitted. The lot lies just outside the new and restrictive S-4 overlay zoning.

Report of Independent Auditors

To the Board of Directors and Stockholders of Concentra Inc:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, cash flows and stockholders' equity (deficit) present fairly, in all material respects, the financial position of Concentra Inc. and its subsidiaries at December 31, 2009 and December 31, 2008, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 12 to the consolidated financial statements, the Company changed the manner in which it accounts for fair value measurements in 2008.
